

Bond Chemicals Company Limited

**Expert Manufacturer of High
Quality Adhesives and Chemicals in
Thailand Since 1985**

Company Introduction

About US

Bond Chemicals, established in 1985, is Thailand's most versatile manufacturer of specialized adhesives. The application of our adhesives ranges from leather, footwear, furniture, automotive, building and construction, insulation, rubber, plastic, paper and speaker assembly industries to DIY and household end-users.

A major supplier in Thailand using state-of-the-art equipment and technology, Bond Chemicals has earned a well-deserved reputation for outstanding product quality and follow-up service. Bond Chemicals is **ISO 9001: 2015, Thailand Brand** and **Thailand Trust-mark certified**. Our product is compliant with **RoHS** and **REACH** substance standards.

Bond Chemicals' products, quality, and outstanding technical services are widely known locally and globally, and very much reflected in our motto:

“We dedicate to make products and provide services to customer satisfaction.”

Product Lines

Solvent-Based Adhesives

FOOTWEAR & LEATHER INDUSTRY

- PU Adhesives
- CR Grafted Adhesives
- CR Contact Adhesives
- Pressure Sensitive Adhesives
- Primers
- Hardeners

FOOTWEAR & LEATHER INDUSTRY

- CR Contact Adhesives
- CR Spray Adhesives

CONSTRUCTION INDUSTRY

- CR Contact Adhesives
- CR Spray Adhesives

AUTOMOBILE INDUSTRY

- PU Adhesives
- CR Contact Adhesives
- CR Spray Adhesives

ELECTRONIC INDUSTRY

- CR Contact Adhesives
- CR Spray Adhesives

PACKAGING INDUSTRY

- PU Adhesives
- CR Grafted Adhesives

Water-Based Adhesives

FOOTWEAR & LEATHER INDUSTRY

- PU Water Based Adhesives
- CR Water Based Adhesives
- Pressure Sensitive Water Based Adhesives

FURNITURE & MATTRESS INDUSTRY

- Wood Adhesives
- Lamination Adhesives
- Spray Adhesives

PACKAGING INDUSTRY

- Plastic, PVC Adhesives
- Paper & Carton Adhesives
- Pressure Sensitive Adhesives

PRINTING INDUSTRY

- Lamination Adhesives
- Pressure Sensitive Adhesives

Hot Melt Adhesives

**FOOTWEAR INDUSTRY
FURNITURE INDUSTRY
PACKAGING INDUSTRY
PRINTING INDUSTRY**

Epoxy Adhesives

**FURNITURE INDUSTRY
CONSTRUCTION INDUSTRY
AUTOMOBILE INDUSTRY
ELECTRONIC INDUSTRY**

Primers

For Various Types of Material
(PU, PVC / EVA / TPR / Rubber
/ Leather / Oil Leather, Etc.)

Hardeners

Improve cohesive strength
and adhesion to difficult to
bond material surface.

Cleaners

Both Solvent-Based
&
Non-Toxic Products

Services

Research and Development

- Research and develop products that meet the need of our customers.
- Innovate with functionality, safety and productivity.

Production

- Control every step of our production process from selected raw materials to finished products according to quality and safety standards, and keep detailed records to trace back our production.
- Provide the fastest possible order fulfillment with our flexible production program.
- Formulate specific adhesives to fit customers' needs, using appropriate raw materials, quality control programs, and packaging services.
- Improve product specs to satisfy customers' requirements.

Quality Control

- Supply stable products through closely monitored quality control.

Logistics

- Assure efficient, on-time delivery of our products.

Sales

- Offer follow-up technical services and consultations after sales to our customers.

Services

On Site Service

We provide on-site consultation to monitor application processes and to ensure your satisfaction

OEM

We formulate and package products per customers' specification

Made to Order

For customers who have special requirements, we provide made to order service to meet your requirements

Technical Services

We provide tests in our lab to analyze and advise you toward a perfect solution

After Sales Service

We provide you with any help you need after purchase. We will help analyze and solve any problems you may face
